8. Market how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and state of food stocks.

11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Markets well supplied.

9. (1) Sowing operation is going on in Bangalore South Taluk.

(2) Paddy is being harvested in Magadi and Bangalore South Taluks under certain tanks.

(3) Ploughing operation is in progress.

(4) Paddy and sugarcane are in good condition.

10. Public Health is generally good except for the prevalence of Plague at Sompura, Nelamangala Taluk, and Cholera in following villages of Kankanhalli Taluk :—

1. Pedappanahalli,
2. Marlawadi,
3. Chikamuduvadi,
4. Hulugondanahalli,
5. Kodihalli,
6. Kolliganahalli,
7. Kalagondanahalli,
8. Doddasadenahalli,
9. Thigalenahalli and (1) Kylancha Tapper's Colon, (2) Channamanahalli, (3) Rangarayaradoddi in Ramanagaram Taluk, and Vijayapur, Devanhalli Taluk, and Heggodu, Anekal Taluk. Action is taken to prevent the spread of above two epidemics.

11. Cattle are healthy, except for the outbreak of rinderpest at Sugganahalli, Ramanagaram Taluk. Action is taken to prevent the spread of the disease.

KOLAR.

8. Moderately supplied.

9. (1) *Seeds sown.*—Nil.

Ploughing operations are in progress. Rains are badly wanted to commence sowings.

(2) *Standing crops.*—Sugarcane and irrigated ragi are reported to be fair.

(3) *Harvested.*—Vaisakhy paddy is being reaped in some parts of Kolar Taluk.

10. There was no rainfall during the week. Fodder and water are available for cattle.

11. People and cattle are reported to be healthy but for prevalence of small-pox in some parts of Chikballapur Taluk and cholera in some parts of both Chikballapur and Gudibanda Taluks. Preventive measures have been taken to check the spread of the epidemics by the Health Department.

TUMKUR.

8. Fairly well supplied.

9. (1) *Seeds sown.*—Groundnut, castor and jola in Tumkur Taluk.

(2) *Standing crops.*—Paddy, sugarcane, yada ragi, jola and greengram are reported to be in good condition. Rain is wanted for the standing crops as well as for sowing seeds.

10. *Crops harvested.*—Paddy in parts of Kunigal, Koratagere and Gubbi, Taluks.

Public Health.—Public Health is generally good except for the prevalence of plague of in Chicknaikanahalli Town, and Cholera is reported to be still prevailing in Koratagere Taluk. Needful measures are reported to have been taken to check the spread of the epidemic.

11. *Cattle.*—Cattle are reported to be generally healthy except for the prevalence of Blackquarter in some of the villages of Koratagere Taluk, Kenkere and Sonnaikanahalli in Huliyurdurga Hobli and Mavinakatte Village, Kottagere Hobli in Kunigal Taluk and some of the villages in Kore, Bellavi, Kuchangi and Hiregundagal in Tumkur Taluk. Needful preventive steps have been taken to check the spread of the epidemic. Water and fodder are available. Labour is available for cooly classes.

MYSORE.

8. It is reported that the markets are normally well supplied in all the taluks of the District during the week.

Seeds sown.—It is reported that paddy was sown in Chamarajanagar Taluk. Transplantation of paddy under tanks in Nanjangud, T.-Narsipur and Chamarajanagar Taluks are in progress.

9. *Standing crops.*—Such as jola, ragi, togari, castor, groundnut, sugarcane and mulberry are reported to be fairly in good condition. But jola crop in parts of Mysore, Nanjangud, Chamarajangar and Gundlupet, T.-Narasipur and Yelandur Taluks is affected for want of rains at a time when the rainfall is very necessary for growing earheads. The earheads are thinning out as a result of withholding of rains. The scanty rainfall was also contributed to the prevalence of a kind of pest of bugs locally known as "(ಅಡಿ ಕಾಲಿನ ಚಟ್ಟೆ ಹುಳ)" and black pest in some parts. Necessary measures for combating the spread of the disease are being taken in consultation with the Agricultural Department.

10. *Crops harvested.*—Nil.

(1) Prospects of the season are fair.

(2) There was no rainfall in any part of this District during the week. It is reported that the standing jola crops in Gundlupet, Nanjangud, T.-Narasipur, Mysore and Chamarajanagar Taluks and ragi in Hunsur and Nanjangud Taluks are in need of urgent rains.

(3) Both the cooly and agricultural classes are finding sufficient employment all over the District.

(4) Sufficient quantities of foodgrains are made available all over the District.

(5) Public health is generally good except for the prevalence of Plague in a few villages of Heggaddevankote Taluk and Cholera in a few villages of Heggaddevankote, Gundlupet and Yelandur Taluks. Necessary preventive and remedial measures are being taken to check the spread of the epidemics.

11. Cattle are reported to be generally healthy. Sufficient quantities of fodder and water are available all over the District.

MANDYA.

8. Well supplied.

9. The standing crop of sugarcane in Visvesvaraya Canal area and kar-paddy in small extents in all the taluks of the District are reported to be in good condition. Paddy in the atchkats of Kotebetta, Hulikere, Bindiganavale, Hiduva and Bellur Taluks in Nagamangala Taluk is reported to be under harvest.

10. Prospects of the season are reported to be satisfactory.

11. The public health is reported to be generally good throughout the District. Cattle are reported to be generally healthy. Water and fodder are reported to be available in sufficient quantities in all the taluks of the District.

HASSAN.

8. Well supplied.

9. Agricultural operations are in progress. Sugarcane is reported to be in good condition. No damage has been done to the crops.

10. Prospects of the season are reported to be fair. Rainfall is needed throughout the District both for ragi and paddy crop.

11. The cattle were healthy and fodder available.

SHIMOGA.

8. Well supplied.

9. Jola, ragi, save and groundnut were sown. Paddy crop was transplanted in Hosanagar Taluk. The standing crops sugarcane, cotton, paddy and groundnut were in good condition.

10. Prospect of the season was generally good. There was prevalence of small-pox in Thirthahalli Taluk. Preventive measures were taken.

11. Cattle were healthy in all the Taluks except in Sagar Taluk where Anthrax prevailed among cattle. Preventive measures are reported to have been taken. Water and fodder were available.

CHIKMAGALUR.

8. Markets are fairly well supplied. Prices are high. Shandies in Tarikere, Ajjampura, Shivane and Sollapura are not being held on account of Cholera.

9. (1) *Standing crops.*—Sugarcane in Chikmagalur Taluk, sugarcane, kar paddy, mungar jola, coriander,

til, cotton and groundnut in Kadur Taluk and Tarikere Taluks. Sugarcane and paddy in Narasimharajapura Sub-Taluk are the standing crops.

(2) *Seeds sown and Transplantation.*—Paddy and other grains are being sown in Tarikere Taluk and paddy in the other parts of the District is being sown.

(3) *Crops harvested.*—Nil.

10. Public health was generally good. It is reported that two deaths have been occurred due to cholera in Mallaghatta Village of Singatagere Hobli in Kadur Taluk and the Health Department authorities have been addressed to take necessary preventive action to check the spread of the disease. It is reported that small-pox is prevailing in Karathala Village, Tarikere Taluk. Outbreak of cholera in Lakkavalli is also reported and necessary preventive measures taken.

11. Cattle are generally healthy except in Tarikere Taluk where it is reported that 6 cattle are dead in Hariyanahalli Village of Shivane Hobli (ಮುಚ್ಚಕಟ್ಟೆ ರೋಗ). The Veterinary Departmental authorities have been requested to take necessary action in the matter. Water, fodder and labour are available in sufficient quantities.

CHITALDRUG.

8. Markets are well supplied except controlled commodities.

9. *Seeds sown.*—Sowing of jola, ragi, groundnut, cotton til, navane and sajje is reported to be in progress.

Standing Crops.—The standing crops recently sown, *i.e.*, such as jola, ragi, navane, til, groundnut, etc., are in good condition but they are in urgent need of rains.

Crops harvested.—Groundnut in Hiriyur Taluk and Paddy in Molakalmuru Taluk is reported to be harvested.

10. Cooly classes are finding sufficient labour.

11. Cattle are reported to be generally healthy throughout the District except prevalence of Rinderpest in Kadajji Village, Davangere Taluk, and Blackquarter in Upparahalli and Donehalli in Challakere Taluk and Sajjanakere in Chitaldrug Taluk. The Veterinary Department is reported to have been addressed for taking immediate steps to check the spread of the disease.

Public health is generally good throughout the District except prevalence of small-pox in Donehalli and Haligondanahalli of Challakere Taluk. The District Health Officer is reported to have been addressed to take preventive measures. Water and fodder are available.

N. V. SIDDALINGAPPA,
For *Director.*

MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE, WEEK ENDED JUNE 21, 1951.

A total of 18 attacks with 6 deaths from Plague was returned from 10 villages in 6 taluks, in 5 districts during the week against 8 attacks with 8 deaths in the previous week. Bangalore Corporation, Mysore City and Kolar Gold Fields reported free from Plague. Comparative figures for the corresponding week in 1950 and 1949 were nil attack, with nil death and 51 attacks with 30 deaths, respectively.

A total of 49 attacks with 12 deaths from Small-pox were reported from the Cities of Bangalore, Mysore and Kolar Gold Fields and from the taluks of Channapatna, Goribidnur, Hosadurga, Malur, Soraba, Sreenivasapura and Thirthahally.

Two hundred and twenty-five attacks with 96 deaths from Cholera were reported from Arsikere, Gudibanda and Vijayapura Towns and from the taluks of Anekal, Bangalore North, Bangalore South, Chamarajanagar, Pandavapura, Gudibanda, Hosadurga, Hoskote, Kortagere, Kankanhalli, Kadur, Krishnarajanagar, Molakalmuru, Mandya, Maddur, Malur, Mysore, Nelamangala, Nanjangud, Ramanagaram, Srirangapatna and Tarikere. 360

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 214 (47 in hospitals) for 6 days representing a calculated death-rate of 25·1 (19·6 excluding hospital deaths) per mille of population (annual basis) as against 23·7 (18·1 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths numbered 1 under Small-pox, 1 under Typhoid, 7 under Other Fevers, 45 under Dysentery and Diarrhœa and 160 under All Other Causes. The reported mortality was low.

The total mortality for Mysore City was 68 (23 in hospitals) for 6 days representing a calculated death-rate of 20·9 (13·8 excluding hospital deaths) per mille of population (annual basis) as against 18·8 (13·1 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths were: Small-pox 7, Malaria 3, Typhoid 1, Other Fevers 4, Dysentery and Diarrhœa 2, and All Other Causes 51. The reported mortality was very low.

8. Market how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and state of food stocks.

11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Well supplied.

9. (1) Ragi and paddy are being sown.

(2) Standing crops such as paddy, sugarcane, til and ground-nut are in good condition.

(3) Harvest of ground-nut has commenced in some parts.

(4) Car paddy is being harvested in Channapatna Taluk.

10. Public Health is good as well as that of Cattle except for the prevalence of Plague at Dobspet, Nelamangala Taluk, and Cholera in the following seven villages of Kankanhalli Taluk and Arudi Dodballapur Taluk :—

1. Peddappanahalli,
2. Marlawadi,
3. Chikamuduvadi,
4. Hulugondanahalli,
5. Kolliganahalli,
6. Kaligondanahalli,
7. Thigalarahalli

Rinderpest (Chapperoga) at Kannamangala Hoskote Taluk is reported. Action is being taken to prevent the spread of the epidemics.

Water and Fodder are available.

11. Coolies find sufficient labour.

KOLAR.

8. Moderately supplied.

9. (1) *Seeds sown.*—Ragi, avare, same and horsegram are reported to have been sown during the week.

(2) *Standing crops.*—Irrigated ragi and Punaji paddy are reported to be fair.

(3) *Crops harvested.*—Paddy and kar-ragi are being harvested in Gudibanda Taluk.

10. There was rainfall during week in all the Taluks. Fodder and water are available for cattle.

11. People and cattle are reported to be generally healthy but for prevalence of black-quarter for cattle in some parts of Chikballapur Taluk. Preventive measures have been taken to check the spread of the epidemic by Animal Husbandry Department.

TUMKUR.

8. Fairly well supplied.

Seeds sown.—Groundnut, castor and jola in Tumkur Taluk. The recent rains were very helpful for preparation for sowing ragi and avare, etc., Rain is still wanted in some parts of the District.

9. *Standing crops.*—Yada ragi, jola, ground-nut, bengalgram and greengram are reported to be in good condition.

10. *Crops harvested.*—Paddy in parts of Koratagere and Kunigal Taluks.

Public Health.—Public Health is generally good except for the prevalence of Cholera in Kunigal Town, Koratagere Taluk and one suspected case in Tumkur Town and plague in Jogihalli and Tarabenahalli and ratfalls in Jayachamara japura village, in Chiknaikanahalli Taluk, and small-pox in Beeranakal village, Tumkur Taluk. Necessary preventive measures are reported to have been taken to check the spread of the epidemic.

11. *Cattle.*—Cattle are reported to be generally healthy except for the prevalence of Blackquarter in Nandiballi village in Tumkur Taluk. Preventive measures have been taken to check the spread of the epidemic. Water and fodder are available. Labour is available for cooly classes.

MYSORE.

8. It is reported that the markets are normally well supplied in all the taluks of this District during the week.

Seeds sown.—It is reported that paddy was sown in Chamarajanagar Taluk. Transplantation of paddy is in progress in the taluks of Nanjangud, T.-Narsipur, Krishnarajanagar, Mysore and Chamarajanagar Taluks.

9. *Standing crops.*—Such as jola, ragi, togari, castor, groundnut and sugarcane are in need of urgent rains. But standing jola crop in parts of Mysore, Chamarajangar, Gundlupet and Nanjangud Taluks is affected by a kind of insects. In Gundlupet Taluk it is reported that in villages where imported seed jola has been sown, earheads have not come up in the sturdy crop. Necessary measures for combating the spread of the disease are being taken in consultation with the Agricultural Department. Ragi crop is withering for want of rains. The yield of jola crop is poor in the taluks of Mysore, Nanjangud, Gundlupet, Yelandur and T.-Narasipur due to inadequacy of rainfall.

10. *Crops harvested.*—It is reported that groundnut in T.-Narsipur Taluk and kar paddy in Krishnarajanagar Taluk were being harvested.

(1) Prospects of the season are fair.

(2) There was no rainfall in any part of this District except in Chamarajanagar and Krishnarajanagar Taluks where too, it is insufficient. The standing crops in Mysore, Chamarajanagar, Hunsur, Krishnarajanagar, Gundlupet, Nanjangud, T.-Narasipur and Periyapatna Taluks are reported to be in urgent need of rains.

(3) Both the cooly and agricultural classes are finding sufficient employment all over the District.

(4) Sufficient quantities of foodgrains are made available all over the District.

(5) Public health is generally good except for the prevalence of Plague in a few villages of Heggaddevankote and Mysore Taluks and Cholera in a few villages of Heggaddevankote and Yelandur Taluks. Necessary preventive and remedial measures are being taken to check the spread of the epidemics.

11. Cattle are reported to be generally healthy. Sufficient quantities of water and fodder are available throughout the District.

MANDYA.

8. Well supplied.

9. Standing crop of sugarcane in Visvesvaraya Canal area and kar-paddy and kar-ragi in small extents in Mandya, Maddur and Malavalli Taluks are reported to be in good condition. Paddy under certain tank atchkat of Nagamangala Taluk are reported to be under harvest.

10. Prospects of the season are reported to be satisfactory.

11. The public health is reported to be generally good throughout the District except for the prevalence of smallpox in Gamanahalli, cholera in some villages of Srirangapatna Taluk. Preventive measures are reported to have been taken to check the spread of the epidemic. Cattle are reported to be generally healthy. Water and fodder are reported to be available in sufficient quantities in all the taluks of the District.

HASSAN.

8. Well supplied.

9. Agricultural operations are in progress throughout the District. Sugarcane is the only standing crop and its condition is reported to be good. No damage has been done to the crops.

10. Prospects of the season are fair but rains are needed for the paddy and ragi crops.

11. The cattle were healthy and fodder available.

SHIMOGA.

8. Well supplied.

9. Paddy, ragi, jola, and save were sown in Channagiri and Bhadravati Taluks. The standing crop of sugarcane, cotton, groundnut, and paddy were generally in good condition. Paddy was transplanted in Hosanagar Taluk. There is need for rains in Thirthahalli Taluk for transplantation of paddy.

10. Prospect of the season was generally good. There is need of rainfall for the standing crop. There was prevalence of plague in a few villages in Channagiri Taluk. Preventive measures are reported to have been taken.

11. Cattle were healthy in all the Taluks except in the Taluk of Honnali where Galaleroga is reported to have been prevailing. Preventive measures were taken. Fodder and water were available to cattle.

CHIKMAGALUR.

8. Markets are fairly well supplied. Prices are going higher. Shivane shandy is closed on account of Cholera.

9. (1) *Standing crops.*—Sugarcane in Chikmagalur, Narasimharajapura Taluks, sugarcane, kar paddy, mungar jola, til, coriander, cotton and groundnut in Kadur and Tarikere Taluks are the standing crops. Their condition is fairly good.

(2) *Seeds sown and Transplantation made*:-Ragi is sown in some parts of Tarikere Taluk. Transplanting of paddy in Mudigere Taluk is not successful owing to insufficient rainfall. The paddy crop in Sankase village in Narasimharajapura Taluk is being infected by leptispa pest.

(3) *Crops harvested.*—Nil.

10. Prospects of the season are reported to be fair. Want of timely rains in Kadur taluk has retarded considerably the growth of the standing crops. Insufficient rainfall in Mudigere Taluk has also made the transplanting of paddy unsuccessful.

Public health is generally good except in Tarikere taluk, where it is reported that Lakkavalli and Kudlur villages are effected with cholera and the Medical Departmental authorities have been requested to take necessary preventive measures from the spread of the disease. Cholera is also prevalent in Chikmagalur Town and in some parts of Kadur taluk. Necessary preventive measures have been taken.

11. Cattle are generally healthy except for the prevalence of contagious disease in Ganganahalli and Timlapura Villages of Singatagere Hobli in Kadur Taluk. Preventive measures are taken by the Animal Husbandry Department.

CHITALDRUG.

8. Markets are well supplied except for controlled commodities.

9. *Seeds sown.*—Transplantation of Dodda ragi in Challakere Taluk, sowing of ragi and cotton in Holalkere Taluk; Dodda ragi in Molakalmuru Taluk; jola, ragi, cotton, sajje and navane in Davangere Taluk; cotton and groundnut in Harihar Taluk is going on.

Standing Crops.—The standing crops such as jola, ragi, paddy, groundnut, til, castor, navane and sajje, etc., recently sown are fairly in good condition but they are in urgent need of rains. Sugarcane in Hiriyur Taluk is in good condition.

Crops harvested.—Groundnut and paddy in Hiriyur Taluk and paddy in Molakalmuru Taluk is reported to be harvested.

10. Cooly classes are finding sufficient labour.

11. Cattle are reported to be generally healthy throughout the District except prevalence of Blackquarter in Kaparahalli and Dodderi in Challakere Taluk and Rinderpest in Gurusiddapura, Jagalur Taluk. The Veterinary Department is reported to have been addressed for taking immediate steps to check the spread of the disease.

Public health is generally good throughout the District except the prevalence of small-pox in Obannanahalli, Kereyagalahalli of Challakere Taluk. The District Health Officer is reported to have been addressed to take preventive measures.

Water and fodder are available.

BANGALORE,
Dated 6th July 1951.

N. V. SIDDALINGAPPA,
For *Director.*

MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

365

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE FOR THE WEEK ENDED THURSDAY, THE 28TH JUNE 1951.

A total of 30 attacks with 7 deaths from Plague was returned from 8 villages in 4 taluks in 2 districts during the week against 18 attacks with 6 deaths in the previous week. The Cities of Bangalore, Mysore and Kolar Gold Field reported free from Plague. Comparative figures for the corresponding week in 1950 and 1949, were nil attack with nil death and 68 attacks with 37 deaths, respectively.

A total of 35 attacks with 14 deaths from Small-pox were reported from the Cities of Bangalore and Mysore; and from Hole-Narsipur Town; and from the Taluks of Chamarajanagar, Gundlupet, Honnali, Krishnarajanagar, Malavalli, Periyapatna, Srinivasapur and Tarikere.

Two hundred and sixty-two attacks with 127 deaths from Cholera were reported from Bangalore and from the towns of Arsikere, Hole-Narsipur, Heggaddevankote and Kankanhally and from the taluks of Bangalore North, Channapatna, Chiknaikanahalli, Gundlupet, Heggaddevankote, Hiriyur, Kankanahallli, Kadur, Krishnarajanagar, Koratagere, Magadi, Mandya, Mysore, Molakalmuru, Nelamangala, Pandavapura, Periyapatna, Ramanagaram, Srirangapatna, Turuvekere and Yelandur.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 278 (102 in hospitals) for 7 days representing a calculated death-rate of 27·7 (17·9 excluding hospital deaths) per mille of population (annual basis) as against 24·1 (18·4 excluding hospital deaths) for the corresponding week of last year. Classified according to causes, the deaths numbered 2 under Small-pox, 2 under Cholera, 2 under Typhoid, 5 under Other Fevers, 44 under Dysentery and Diarrhœa and 223 under All Other Causes. The reported mortality was low.

The total mortality for Mysore City was 93 (42 in hospitals) for 6 days representing a calculated death-rate of 28·0 (15·6 excluding hospital deaths) per mille of population (annual basis) as against 16·3 (9·7 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths were: Small-pox 1, Malaria 6, Typhoid 1, Other Fevers 5, Dysentery and Diarrhœa 13 and All Other Causes 67. The reported mortality was low.

There were 18 deaths (2 in hospitals) for 4 days from all causes in Kolar Gold Fields equivalent to a calculated death-rate of 8·9 (7·9 excluding hospital deaths) per mille of population. Classified according to causes the deaths numbered 2 under Other Fevers, 5 under Dysentery and Diarrhœa and 11 under All Other Causes; The reported mortality was very very low.

8. Market how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and state of food stocks.

11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Well supplied.

9. (1) Ploughing operation is in progress. Ragi is sown. Avare is sown. Sugarcane plants, til and groundnut are in good condition.

Harvest of groundnut is commenced in some parts of Magadi Taluk.

Sowing of Ragi is held up for want of rain in Magadi Taluk.

10. Public Health is good except for the prevalence of Cholera in Ramanagaram, Bidadi, Ramanagaram Taluk, Mylanayakanahalli and Tore-Hoson (both in Channapatna Taluk and the following villages of Kankanhalli Taluk :—

1. Pedappanahalli,
2. Marlawadi,
3. Chikamuduvadi,
4. Hulugondanahalli,
5. Kolliganahalli,
6. Kadugondanahalli,
7. Thigalarahalli,

There is small-pox in Makali Village in Channapatna Taluk.

Action is taken to prevent the spread of the above three epidemics.

Cattle are reported to be healthy except for the outbreak of rinderpest in Bendiganahalli, Sulibele Hobli, Hoskote Taluk. Action is taken to prevent the spread of the disease.

Water and fodder are available.

11. Coolies find sufficient labour.

KOLAR.

8. Moderately supplied.

9. (1) *Seeds sown.*—Ragi, Avare, Thogari and Horsegram, are reported to have been sown in all the taluks, during the week.

(2) *Standing crops.*—Ragi, Avare, Thogari and Horsegram are reported to be fair.

(3) *Crops harvested.*—Same and Irrigated Ragi are being harvested in Mulbagal Taluk.

10. There was rainfall during the week in some taluks. Fodder and water are available for cattle.

11. People and cattle are reported to be generally healthy but for prevalence of small-pox in some parts of Chickballapur and Srinivasapur Taluks and "ಜಪ್ಪೆದೊಡ್ಡ" for cattle in some parts of Srinivasapur Taluk. Preventive measures have been taken to check the spread of the epidemic by the Public Health and Animal Husbandry Departments.

TUMKUR.

8. Fairly well supplied.

9. *Seeds sown.*—Paddy, Ragi, Groundnut, Jola, Avare and Thogari in all the parts of the District, and ploughing operations are also going on for sowing ragi and other millets.

Standing crops.—Jola, Groundnut, Bengalgram, Greengram and Ragi and Sugarcane are reported to be in good condition.

Crops harvested.—Paddy in parts of Koratagere and Kunigal Taluks.

10. *Public Health.*—Public Health is generally good except for the prevalence of cholera in Kunigal Town, Borasandra, Shettigehalli, Khodipura, Kodamathikere, Janagara and Nidasale in Kunigal Taluk, and plague in Chiknaikanahalli Town, Tarabanahalli and Jogihalli in Chiknaikanahalli Taluk. Precautionary measures have been taken to check the spread of the epidemic and the concerned Departments active at it.

Cattle.—Cattle are reported to be generally healthy except the prevalence of Black-quarter in some of the villages of Kasaba Circle in Koratagere Taluk. Preventive measures are reported to have been taken by the concerned authorities to check the spread of the epidemic. Water and fodder are available. Labour is available for cooly classes.

MYSORE.

8. It is reported that the markets are normally well supplied throughout the District during the week.

Seeds sown.—It is reported that ragi and paddy were sown in Mysore, T.-Narasipur, Chamarajanagar Taluks and paddy in Hunsur and Chamarajanagar Taluks. The transplantation of paddy is in progress in the taluks of Mysore, Chamarajanagar, Nanjangud, T.-Narsipur and Krishnarajanagar Taluks.

9. *Standing crops.*—Such as ragi, jola, groundnut, castor, togari and cotton are withering for want of rains in almost all the taluks of the District. But the standing jola crop in parts of Mysore, Nanjangud, Gundlupet, Chamarajanagar and Yelandur Taluks is affected by a kind of insects. Necessary preventive measures for combating the spread of the disease are being taken in consultation with the Agricultural Department. The yield of jola crop is reported to be poor in the taluks of Mysore, Nanjangud, Chamarajanagar, T.-Narasipur, Gundlupet and Yelandur Taluks due to want of rains. The sowing of hyne ragi is delayed in almost all parts of this District for want of rains. It was noticed in my recent tour in Hunsur and Periyapatna Taluks that kar ragi crop has been withering away and that the seedlings that were ready for transplantation have become old as the transplantation season is already over. In almost all the places the ryots represented that they wanted hyne ragi seeds immediately so that they may at least take up sowing and transplanting hyne ragi wherever kar ragi has failed. The Director of Agriculture and the Commissioner for Food Production have been addressed in the matter.

10. (1) Prospects of the season are fair.

(2) There was no rainfall in any part of this District except in the taluks of Chamarajanagar, Krishnarajanagar, T.-Narasipur and Yelandur where it is reported to be insufficient.

(3) Sufficient quantities of foodgrains are made available throughout the District.

(4) Both the cooly and agricultural classes are finding sufficient employment all over the District.

(5) Public health is generally good except for the prevalence of Plague in a few villages of Heggaddevankote Taluk and Cholera in a few villages of Chamarajanagar, Heggaddevankote, Nanjangud, Mysore and Yelandur Taluks. Necessary preventive and remedial measures are being taken to check the spread of the epidemics.

11. Cattle are reported to be generally healthy. Sufficient quantities of water and fodder are available all over the District.

MANDYA.

8. Well supplied.

9. Standing crops of sugarcane in Visvesvaraya Canal area and kar-paddy cultivated in small extents in all the taluks are reported to be in good condition. Standing crop of jola is reported to have been affected for want of sufficient rains.

10. Prospects of the season are reported to be satisfactory.

11. The public health is reported to be generally good throughout the District except for the prevalence of Cholera in some villages of Pandavapura and Srirangapatna Taluks. Preventive measures have been taken up to check the spread of the epidemic. Cattle are reported to be generally healthy. Water and fodder are reported to be available in sufficient quantities in all the taluks.

HASSAN.

8. Well supplied.

9. There are no rains for nearly one month. Both ragi and paddy crops are badly in need of rain. Transplanting of paddy is not being done in Malnad and other Malnad areas for want of rain. Even the commercial crops like potato, groundnut are badly in need of rains.

10. Prospects of the season are not hopeful and rains are very badly needed for paddy and ragi crops.

11. Cattle were healthy and fodder available.

SHIMOGA.

8. Well supplied.

9. The standing crops of sugarcane, paddy, groundnut, ragi, jola and save are generally in good condition.

Sowing of ragi and transplantation of paddy is held up for want of rains. The standing crops in Honnali Taluk has begun to wither for want of rains.

10. The prospect of the season was generally good. Rains are urgently needed. There was pravelence of plague in Channagiri Taluk and there was prevelance of small-pox in Thirthahalli Taluk. Preventive measures were taken.

11. Cattle were healthy. Water and fodder were available.

CHIKMAGALUR.

8. Markets are fairly well supplied. Prices are soaring high as in previous weeks.

9. (1) *Standing crops.*—Sugarcane in Chikmagalur and Narasimharajapura Taluks; sugarcane, kar paddy, mungar jola, til, coriander, cotton and groundnut in Kadur and Tarikere Taluks are the standing crops. Rain is badly wanted for the standing crops in Kadur Taluk and mungar jola is apprehended to be a failure in Kadur Taluk.

(2) *Seeds sown and Transplantation made:*—Sowing of coriander and ragi in Kadur Taluk is being done. Transplanting work was held up in Narasimharajapura Sub-Taluk. Transplanting work is not successful in Mudigere Taluk for want of rains.

(3) *Crops harvested.*—Nil.

10. Prospects of the season are reported to be generally good. Rainfall is insufficient almost throughout the District for the standing crops.

Public health is generally good except in Tarikere Taluk, where it is reported that there was a rat fall at Nagabovanahalli village of Shivane Hobli, and small-pox in Bettadavarekere Village. The Medical authorities have been requested to take necessary preventive measures; cholera is prevalent in Chikmagalur Town and in some parts of Kadur and Tarikere Taluks.

11. Cattle are generally healthy except in Danayakapura of Tarikere Taluk, where it is reported that cattle are affected by foot and mouth disease. The Animal Husbandry Departmental Authorities have been requested to take necessary preventive measures.

Water and fodder are available throughout the District.

CHITALDRUG.

8. Markets are well supplied except for controlled commodities.

9. *Seeds sown.*—Transplantation of dodda ragi is going on in Challakere Taluk; sowing of jola and gidda ragi in Hiriyur Taluk; paddy and dodda ragi in Molakalmuru Taluk; jola, cotton and paddy in Davangere Taluk; cotton and navane in Jagalur Taluk; ragi, save, navane and sajje in Hosadurga Taluk; jola, ragi, cotton and groundnut in Harihar Taluk, is going on. In Chitaldrug Taluk sowing will have to be commenced against after some showers.

Standing crops.—The standing crops such as jola, ragi, paddy, groundnut, til, castor, navane and sajje, etc., recently sown are fairly in good condition but they are in urgent need of rains. It is reported that standing crops in Molakalmuru Taluk are withering for want of rains. Sugarcane crop in Hiriyur Taluk is in good condition.

Crops harvested.—Groundnut and paddy in Hiriyur Taluk is reported to be harvested.

10. Cooly classes are finding sufficient labour.

11. Cattle are reported to be generally healthy throughout the District except prevalence of Rinderpest at Hariyanehalli, Hosadurga Taluk. Veterinary Department is reported to have been addressed for taking immediate steps to check the spread of the disease.

Public health is generally good throughout the District except the prevalence of cholera in Chowlur, Sooranahalli, Parasurampura, Chennammanagathihalli, Jodi Thorebeeranahalli, Kyathagondanahalli Village in Challakere Taluk and Kanajanahalli, Betaganahalli in Hiriyur Taluk. The District Health Officer is reported to have been addressed to take preventive measures to check the spread of the disease.

Water and fodder are available.

MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE, WEEK ENDED THURSDAY JULY 5, 1951.

A total of 37 attacks with 15 deaths from Plague was returned from 8 villages in 4 taluks, in 3 districts during the week against 30 attacks with 7 deaths in the previous week. The Cities of Bangalore, Mysore and Kolar Gold Fields reported free from Plague. Comparative figures for the corresponding week in 1950 and 1949 were nil attack, with nil death and 56 attacks with 31 deaths, respectively.

A total of 32 attacks with 5 deaths from Small-pox were reported from the Cities of Bangalore, Mysore and from the towns of Gundlupet, Magadi and Nyamathi and from the taluks of Bagepalli, Chikmagalur, Kankanhalli, and Ramanagaram.

One hundred and thirty-two attacks with 75 deaths from Cholera were reported from Bangalore Corporation, and from the towns of Chikmagalur, Heggaddevankote, Kankanhalli and from the taluks of Bangalore North, Bangalore South, Chikmagalur, Dodballapur, Goribidnur, Gudibanda, Hiriyur, Heggaddevankote, Kankanhalli, Kadur, Krishnarajanagar, Koratagere, Molakalmuru, Pandavapura, Ramanagaram, Srirangapatna, T.-Narsipur and Yelandur.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 214 (54 in hospitals) for 7 days representing a calculated death-rate of 14·3 (10·7 excluding hospital deaths) per mille of population (annual basis) as against 23·6 (17·8 for the corresponding week of last year. Classified according to causes the deaths numbered 1 under Malaria, 1 under Typhoid, 7 under Other Fevers, 35 under Dysentery and Diarrhœa and 170 under All Other Causes. The reported mortality was very low.

The total mortality for Mysore City was 69 (18 in hospitals) for 6 days representing a calculated death-rate of 16·9 (12·5 excluding hospital deaths) per mille of population (annual basis) as against 14·8 (11·0 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths were: Small-pox 3, Malaria 3, Other Fevers 12, Dysentery and Diarrhœa, 10 and All Other Causes 41. The reported mortality was very low.

There were 45 deaths (5 in hospitals) for 6 days from all causes in Kolar Gold Fields equivalent to a calculated death-rate of 16·9 (15·0 excluding hospital deaths) per mille of population (annual basis). Classified according to causes the deaths numbered 1 under Typhoid, 3 under Other Fevers, 12 under Dysentery and Diarrhœa and 29 under All Other Causes. The reported mortality was very low.

2730 T. CHANDRASEKHARAIYA, *Director.*

OFFICE OF THE DIRECTOR OF ANIMAL HUSBANDRY SERVICES IN MYSORE, BANGALORE.

(HEALTH OF LIVE-STOCK DURING JUNE 1951.)

Notification dated 16th July 1951.

In their order of severity, outbreaks of Rinderpest, Black-quarter, Hæmorrhagic-septicæmia, Anthrax, Sheep-pox, Foot and Mouth, Ranikhet and Contagious-goat pleuro-pneumonia were encountered in the State during June 1951. Altogether 354 villages were reported to have been affected by one or the other of the several contagious and infectious diseases, as against 262 villages during the previous month. The number of outbreaks was highest in Kolar, Tumkur and Bangalore Districts, while Shimoga, Chikmagalur and Mandya were least affected. These diseases accounted for 1,133 animals of which 1,039 succumbed. The departmental staff conducted 55,441 preventive inoculations and vaccinations against all the above diseases except Foot and Mouth disease. In the absence of a reliable method of vaccinatory intervention other prophylactic measures were adopted against Foot and Mouth disease.

Four outbreaks of Rinderpest of which two were among sheep were registered in Davangere, Jagalur, Molakalmuru and Challakere Taluks accounting for 16 attacks among cattle and 59 attacks among sheep, of which 9 cattle and 33 sheep succumbed. Prompt measures of control were undertaken by the Department to check its spread and 772 cattle and 1,038 sheep and goats in the infected villages and 2,369 cattle in 12 neighbouring villages were protected against this disease. The disease appeared to be well under control at the end of the month under report.

Diseases caused by internal parasites were reported from 101 villages resulting in 14 deaths as against 95 villages accounting for 9 deaths during the previous month. The special staff attached to the parasitic disease control units of the Department dosed 5,913 animals as against 6,462 animals during the previous month.

The rest of the live-stock remained free from diseases during the month, and fodder and water were generally available throughout the State.

P. M. NARAYANASWAMI NAIDU,
2816 *Director.*

8. Market how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and state of food stocks.

11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Markets well supplied.

9. Ploughing operation is in progress. Sowing operation is in progress. Sowing of ragi, paddy, avare and thogari are done.

Standing crops such as til, groundnut, sugarcane are in good condition.

Harvest of groundnut is in progress.

10. Public health is generally good except for the prevalence of Cholera in two villages of Kasaba, Maralavadi, and Kodihalli Hoblis of Kankanhalli Taluk and Bidadi, Bettingere, Kantanahalli, Ramanagaram Town, Gunnur, Kottipura in Ramanagaram Taluk; and Channapatna town, Milnaikanahalli, Thore Hosur, Malurpatna in Channapatna Taluk. Action is taken to prevent the spread of the disease.

Cattle are reported to be healthy except for the prevalence of Black-quarter in Tavarekere, Magadi Taluk. Action is taken to prevent the spread of the disease.

11. Water and fodder are available. Coolies find sufficient labour.

KOLAR.

8. Moderately supplied.

9. (1) *Seeds sown.*—Ragi, avare, same, thogari, horsegram, groundnuts are reported to have been sown in all taluks.

(2) *Standing crops.*—Ragi, avare, thogari, same, groundnut and horsegram are reported to be fair.

(3) *Crops harvested.*—Irrigated Ragi is being harvested in Mulbagal and Gudibanda Taluks.

10. There was rainfall during the week in all the taluks. Fodder and water are available for cattle.

11. People and cattle are reported to be generally healthy but for prevalence of cholera in some parts of Malur Taluk and Black-quarter for cattle in some parts of Mulbagal and Sidlaghatta Taluks. Preventive measures have been taken to check the spread of the epidemic by the Departments of Public Health and Animal Husbandry.

TUMKUR.

8. Market fairly well supplied.

9. *Seeds sown.*—Ragi, jola, groundnut, paddy, avare and thogari in almost all the parts of the District. Ploughing operations are still going on for sowing ragi.

Standing crops.—Sugarcane ragi, groundnut, bengalgram, greengram and jola are reported to be in good condition. The recent rains were very helpful.

Crops harvested.—Paddy in parts of Kunigal Taluk.

10. *Public Health.*—Public health is generally good except for the prevalence of cholera at Borasandra, Shettigehalli, Khothipura and Kadamathikere of Kasaba Hobli, Janagere and Nidasale, Amruthur and Amaragere in Kunigal Taluk. Cholera at Kunigal seems to be coming under control in Kunigal Town. Acute type of Diarrhœa with vomiting has broken out in Jodi Hanumanthapura, Gorakenahalli and Hunsavadi Villages in Madhugiri Taluk and two villages in Koratagere Taluk. There are still plague attacks in Chicknaikanhalli Town, and small-pox is also prevailing there. Preventive measures are reported to have been taken to check the spread of the epidemics.

11. *Cattle.*—Cattle are reported to be generally healthy except for the prevalence of Black-quarter in Tharur Villages, Sira Taluk. Needful steps have been taken to check the spread of the epidemic. Water and fodder are available. Labour is available for cooly classes.

MYSORE.

8. It is reported that the markets are normally well supplied in all the Taluks of the District during the week.

Seeds sown.—It is reported that ragi was sown in Mysore, Yelandur, Chamarajanagar and T.-Narasipur Taluks and paddy in Gundlupet, Chamarajanagar, Mysore, Yelandur and Hunsur Taluks. The transplantation of paddy is in progress in the Taluks of Mysore, Chamarajanagar, Nanjangud, Krishnarajanagar and T.-Narasipur.

9. *Standing crops.*—Such as ragi, jola, groundnut, castor and cotton are withering for want of rain in almost all the taluks of the District. But the standing jola crop in parts of Yelandur, Gundlupet, Nanjangud, and Chamarajanagar Taluks is affected by a kind of insects. Necessary preventive measures for combating the spread of the disease are being taken in consultation with the Agricultural Department. The yield of jola crop is reported to be poor in the Taluks of Mysore, Nanjangud, Gundlupet, Chamarajanagar and T.-Narasipur due to inadequacy of rainfall. Due to failure of Kar-ragi in parts of Periyapatna and Hunsur the ryots are awaiting rains for sowing Hyne ragi as soon as the rains are set in. The Director of Agriculture and the Commissioner for Food Production have been requested to make arrangements for the supply of adequate stock of Hyne ragi seeds.

10. *Crops Harvested.*—It is reported that jola is being harvested in Nanjangud and T.-Narasipur Taluks and kar-paddy in T.-Narasipur and Krishnarajanagar Taluks.

(1) Prospects of the season are fair.

(2) There was scanty rainfall in the Taluks of Mysore, Hunsur, Krishnarajanagar, Heggadadevankote, T.-Narasipur and Periyapatna.

(3) Sufficient quantities of foodgrains are made available all over the District.

(4) Both the cooly and agricultural classes are finding sufficient employment all over the District.

(5) Public health is reported to be generally good except for the prevalence of Plague in a few villages of Mysore, Gundlupet and Heggadadevankote Taluks and Cholera in a few villages of Mysore and Chamarajanagar Taluks. Necessary preventive and remedial measures are being taken to check the spread of the epidemics.

11. Cattle are reported to be generally healthy. Sufficient quantities of water and fodder are available all over the District.

MANDYA.

8. Well supplied.

9. The standing crop of sugarcane in Visvesvaraya Canal area is reported to be in good condition. Jola is reported to have been affected for want of sufficient rains. The kar-paddy and kar-ragi cultivated in small extents are reported to be under harvest.

10. The prospects of the season are reported to be satisfactory. Rains are urgently required in all the parts of the District for sowing operations of dry crops.

11. The public health is reported to be good throughout the District except for the prevalence of small-pox at Gamanahalli and Cholera in some villages of Srirangapatna Taluk. Preventive measures are reported to have been taken to check the spread of the epidemic. Cattle are reported to be healthy in all the taluks of the District and also water and fodder are reported to be available in sufficient quantities.

HASSAN.

8. Well supplied.

9. Agricultural operations are still in progress. The standing crops, *i.e.*, sugarcane is reported to be in good condition. Potato crop has been damaged.

10. Prospects of the season have improved as the recent rains throughout the District have saved the withering plants of ragi and paddy. Some more rainfall is necessary for the maidan parts of this District.

11. Cattle were healthy and fodder available.

SHIMOGA.

8. Well supplied.

9. Sowing of paddy was completed in Shimoga Taluk; jola and cotton were sown in Chennagiri Taluk; sowing of ragi which was held up in Chennagiri Taluk for want of rain has now begun as the rainfall has begun from 18th July 1951; jola was sown in Honnali Taluk; transplantation of paddy is going on in Sagar, Hosanagar and Tirthahalli Taluks. No standing crop of paddy, sugarcane, ragi, jola, groundnut and save are generally in good condition.

10. The prospect of the season was generally good. Though the rainfall has begun much more rain is required in Shimoga, Shikaripur and Bhadravathi Taluks. There was prevalence of small-pox in Chennagiri Taluk. Preventive measures were taken. Cholera is prevailing in Bhadravathi Taluk. Preventive measures were taken.

11. Cattle were healthy in all the taluks except in Honnali and Bhadravathi Taluks where "Chappe roga" was prevailing. Preventive measures were taken. Water and fodder were available to cattle.

CHIKMAGALUR.

8. Markets were fairly well supplied. Prices are high.

9. (1) *Standing crops.*—Sugarcane in Chikmagalur Taluk; sugarcane, kar paddy, mungar jola, til, coriander, cotton and groundnut in Kadur and Tarikere Taluks are the standing crops. Standing crop in some parts of Mudigere Taluk is withering for want of rains and the transplanting work is also not successful due to inadequate rains. In Narasimharajapura Sub-Taluk sugarcane and paddy are the standing crops. Crops are damaged by insects in Narasimharajapura Sub-Taluk.

(2) *Seeds sown and Transplantation made.*—In some parts of Tarikere Taluk, sowing of ragi and avare has been just commenced. Paddy is being sown in Koppa Taluk. Transplanting of paddy is being done in Mudigere Taluk. But it is not successful.

(3) *Crops harvested.*—Nil.

10. Prospects of the season are reported to be generally good. Rainfall is insufficient in Tarikere, Mudigere and Narasimharajapura Sub-Taluk.

Public health is generally good except for the prevalence of cholera in Chikmagalur Town. Necessary action has been taken by the authorities of the Health Department to prevent the spread of the disease.

11. Cattle are generally healthy. Water and fodder are available.

CHITALDRUG.

8. Markets are well supplied except controlled commodities.

9. *Seeds sown.*—Transplantation of dodda ragi is going on in Challakere Taluk; sowing of jola, ragi, navane and sajje in Hiriyur Taluk; ragi and navane in Holalkere Taluk; jola, ragi, cotton, dhal, sajje, groundnut in Davangere Taluk; dodda ragi and paddy in Molakalmuru Taluk; cotton and navane in Jagalur Taluk; ragi, navane, save and sajje in Hosadurga Taluk; groundnut, jola, ragi, avare and thogari in Harihar Taluk, is going on. In Chitaldrug Taluk sowing will have to be commenced again after some showers of rain.

Standing crops.—The standing crops such as jola, ragi, paddy, groundnut, cotton, til, navane and sajje, etc., recently sown are fairly in good condition. In Molakalmuru Taluk the crops are withering for want of rains.

Crops harvested.—Groundnut and paddy in Hiriyur Taluk are reported to be harvested.

10. Cooly classes are finding sufficient labour.

11. Cattle are reported to be generally healthy throughout the District except prevalence of Rinderpest at Hariyanahalli, Hosadurga Taluk. The Veterinary Department is reported to have been addressed for taking immediate steps to check the spread of the disease.

Public health is generally good throughout the District except the prevalence of cholera in Chowlur, Sowranahalli, Parasurampura, etc., in Challakere Taluk. The District Health Officer is reported to have been addressed to take preventive measures to check the spread of the disease.

Water and fodder are available.

375

MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE FOR THE WEEK ENDED THURSDAY, THE 12TH JULY 1951.

A total of 63 attacks with 31 deaths from Plague was returned from 14 villages in 6 taluks in 4 districts during the week against 37 attacks with 15 deaths in the previous week. The Cities of Bangalore, Mysore and Kolar Gold Field reported free from Plague. Comparative figures for the corresponding week in 1950 and 1949 were nil attack with nil death and 105 attacks with 36 deaths, respectively.

A total of 60 attacks with 12 deaths from Small-pox were reported from the Cities of Bangalore, Mysore, and from the Towns of Gundlupet and Magadi and from the Taluks of Hosadurga, Krishnarajanagar, Malavalli, Srinivasapur, T.-Narsipur, Tarikere and Thirthahalli.

One hundred and fifteen attacks with 73 deaths from Cholera were reported from Mysore City and from the towns of Chikmagalur, Heggaddevankote, Kunigal, Gundlupet and Pandavapura and from the taluks of Arkalgud, Bangalore South, Chamarajanagar, Hiriyur, Heggaddevankote, Kankanahalli, Kadur, Mysore, Pandavapura, Ramanagaram, Srirangapatna, T.-Narsipur, Tarikere and Yelandur.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 259 (70 in hospitals) for 7 days representing a calculated death rate of 17·3 (12·6 excluding hospital deaths) per mille of population (annual basis) as against 24·1 (18·6 excluding hospital deaths) for the corresponding week of last year. Classified according to causes, the deaths numbered 1 under Small-pox, 3 under Typhoid, 8 under other fevers, 44 under Dysentery and Diarrhœa and 203 under all other causes. The reported mortality was very low.

The total mortality for Mysore City was 38 (27 in hospitals) for 5 days representing a calculated death-rate of 11·3 (3·2 excluding hospital deaths) per mille of population (annual basis) as against 17·2 (9·2 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths were: Cholera 4, Typhoid 1, Other Fevers 1, Dysentery and Diarrhœa 1 and all other causes 31. The reported mortality was very very low.

8. Market how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and state of food stock.

11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Markets well supplied.

9. (1) Standing crops such as paddy, ragi, sugarcane, til and groundnut are in good condition.

(2) Sowing of ragi, avare, thogari is in progress.

(3) Harvest of groundnut is in progress.

10. Public health is good except for prevalence of cholera in Annahalli, Ramanagar Taluk, Yediur, Bangalore South Taluk, Chennapatna Town and a few villages in Kasaba Maralavadi, and Harohalli Hoblies of Kankanhalli Taluk and prevalance of plague in Honnenahalli, Nelamangala Taluk. Action is taken to prevent the spread of the above two disease.

11. Coolies find sufficient labour. Water and fodder are available.

KOLAR.

8. Moderately supplied.

9. (1) *Seeds sown.*—Ragi, avare, thogari, horsegram, groundnut and saame are reported to have been sown in all Taluks.

(2) *Standing crops.*—Ragi, avare, thogari, horsegram, same and groundnut are reported to be fair.

(3) *Crops harvested.*—Irrigated ragi is being harvested in some places of Mulbagal and Gudibanda Taluks.

10. There was rainfall during this week in all the taluks except Malur.

Fodder and water are available.

11. People and cattle are reported to be generally healthy but for prevalence of Anthrax for cattle in some parts of Sidlaghatta Taluk and rat-fall in Kothamangala village in Mulbagal Taluk. Preventive measures have been taken to check the spread of the epidemics by the Public Health and Animal Husbandry Departments.

TUMKUR.

8. Market fairly well supplied.

9. *Seeds sown.*—Ragi, paddy, avare, haraka and thogari in all the parts of the District. Ploughing operations are still going on for sowing ragi.

Standing crops.—Sugarcane, ragi, groundnut, bengalgram, greengram and jola are reported to be in good condition. Rain is needed for the standing crops.

Crops harvested.—Vaishakhi paddy in parts of Kunigal, and Gubbi Taluks.

10. *Public Health.*–Public health is generally good except for the prevalence of plague in Chicknaikanahalli Town, Kallubavipalli, Majara of Settikere village in Chicknaikanahalli Taluk, rat-falls in Gurugadahalli, Bajagoor, Hullenahalli—Mapenahalli, and Hosur in Sugur Circle, Tiptur Taluk. Outbreak of plague is also reported at Banasandra village in Turuvekere Taluk. Outbreak of cholera of Thigalanahalli and Hanumanthapura villages in Madhugiri Taluk, and continuance of cholera at Amruthur and Nidasale in Kunigal Taluk. Anti-cholera measures were taken up in Rampur and Holavanahalli villages in Koratagere Taluk also. Needful steps are reported to have been taken to check the spread of the epidemics.

11. *Cattle.*—Cattle are reported to be generally healthy. Water and fodder are available. Labour is available for cooly classes.

MYSORE.

8. It is reported that the markets are normally well supplied in all the Taluks of the District during the week.

Seeds sown.—It is reported that ragi was sown in Mysore, T.-Narasipur, Chamarajanagar and Nanjangud Taluks and paddy in Mysore and T.-Narasipur Taluks. The transplantation of paddy is going on in all the Taluks of the District except in the Taluks of Periyapatna and Heggaddevankote Taluks.

9. *Standing crops.*—Such as ragi, jola, groundnut, sugarcane, cotton, and chillies are reported to be fairly in good condition. But the standing jola crop in parts of Gundlupet, Chamarajanagar, Nanjangud and Yelandur Taluks is affected by a kind of insects. Necessary preventive and remedial measures are being taken to check the spread of the disease in consultation with the Agricultural Department. Standing crops are badly in need of rains.

10. *Crops Harvested*—It is reported that jola is being harvested in the taluks of Mysore, Nanjangud, Chamarajanagar and T.-Narasipur and the yield is reported to be very poor due to inadequacy of rainfall and also due to pest attack.

(1) Prospects of the season are fair.

(2) There was fairly good rainfall just sufficient for the standing crop in all the Taluks of this District except in the Taluks of Chamarajanagar and Krishnarajanagar Taluks.

(3) Both the cooly and agricultural classes are finding sufficient employment all over the District.

(4) Sufficient quantities of foodgrains are made available all over the District.

(5) Public health is reported to be generally good except for the prevalence of Plague in a few villages of Heggaddevankote and Gundlupet Taluks and in one village of Hunsur Taluk and Cholera in a few villages of Mysore, Chamarajanagar, T.-Narasipur, Yelandur, Gundlupet and Krishnarajanagar Taluks. Necessary preventive and remedial measures are being taken to check the spread of the epidemics.

11. Cattle are reported to be generally healthy. Sufficient quantities of water and fodder are available all over the District.

MANDYA.

8. Well supplied.

9. Transplantation of paddy under Nala atchkat is in progress. The standing crop of sugarcane in Visvesvaraya Canal area is reported to be in good condition. Jola is reported to be under harvest in Nagamangala. Sowing operations in respect of dry crops has commenced.

10. The prospects of the season are reported to be satisfactory.

11. The public health is reported to be good throughout the District except for the prevalence of Small-pox and Cholera in Chikkarasinakere village of Maddur Taluk and stay cases of Cholera in Vadiyandahalli of Srirangapatna Taluk and Haralahalli—Muttanahalli of Maddur Taluk. Preventive measures are reported to have been taken to check the spread of the epidemic. Cattle are reported to be healthy and water and fodder are reported to be available in sufficient quantities in all the taluks.

HASSAN.

8. Well supplied.

9. Agricultural operations are in progress. Standing crop, such as sugarcane is reported to be in good condition.

10. Prospects of the season are reported to be fair as there had been good rains throughout the District.

11. The cattle were healthy and fodder available.

SHIMOGA.

8. Well supplied.

9. Sowing of paddy was completed in Shimoga and Shikaripur Taluks. Sowing of ragi was commenced in Chennagiri and Shikaripur Taluks. Agricultural operations were going on. There was sufficient rainfall. The standing crop of paddy, sugarcane, jola, ragi and groundnut were in good condition as they received adequate rainfall. Transplantation of paddy was going on in Sagar, Hosanagar, Tirthahalli and Bhadravati Taluks.

10. Prospect of the season was generally good.

11. Cattle were healthy in all the taluks except in Shikaripur Taluk where they suffered from "Galale roga". Preventive measures were taken. Water and fodder were available.

CHIKMAGALUR.

8. Markets were fairly well supplied. Prices are high.

9. (1) *Standing crops.*—Sugarcane and paddy in Chikmagalur Taluk, sugarcane, car paddy, mungar jola, til, coriander, cotton and groundnut in Kadur and Tarikere Taluks are the standing crops. It is reported that crops are being damaged by pests.

(2) *Seeds sown and Transplantation made.*—Transplanting of paddy and sowing of ragi in Tarikere Taluk is under progress. Paddy is being sown in Koppa Taluk, and Transplanting of paddy in Mudigere Taluk is also being done and the previous transplantations which were withering for want of rains, have also been improved due to the good rainfall during the week under report.

(3) *Crops harvested.*—Nil.

10. Prospects of the season are reported to be generally good. Public Health is generally good.

11. Cattle are generally healthy. Water and fodder are available.

CHITALDRUG.

8. Markets are well supplied except controlled commodities.

9. *Seeds sown.*—Sowing of jola, ragi, navane, sajje, cotton, groundnut and paddy etc., are reported to be in progress.

Transplanting of dodda ragi is going on in some parts of Challakere Taluk.

Standing crops.—The standing crops such as jola, ragi, paddy, groundnut, cotton, til, navane and sajje, etc., recently sown are fairly in good condition. In Molakalmuru Taluk crops are withering for want of rains.

Crops harvested.—Paddy and sugarcane in small scale are reported to be harvested in Hiriyur Taluk.

10. Cooly classes are finding sufficient labour.

11. Cattle are reported to be generally healthy throughout the District.

Public health is generally good throughout the District except the prevalence of Cholera in Chowlur, Suranahalli, Parasurampura, etc., in Challakere Taluk. The District Health Officer is reported to have been addressed to take preventive measures to check the spread of the disease. Water and fodder are available.

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE,
Bangalore,
Dated 31st July 1951.

K. SRINIVASAN,
Revenue Commissioner.

MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE, WEEK ENDED THURSDAY JULY 19, 1951.

A total of 31 attacks with 12 deaths from Plague was returned from 8 villages in 4 taluks in 2 districts during the week against 63 attacks with 31 deaths in the previous week. The Cities of Bangalore, Mysore and Kolar Gold Fields reported free from Plague. Comparative figures for the corresponding week in 1950 and 1949 were 10 attacks, with 4 deaths and 39 attacks with 25 deaths, respectively.

A total of 16 attacks with 5 deaths from Small-pox were reported from the towns of Magadi and Gundlupet and from the taluks of Honnali, Nelamangala, Tarikere and T.-Narsipur.

Two hundred and sixteen attacks with 113 deaths from Cholera were reported from Bangalore Corporation and Mysore City and from the towns of Chikmagalur, Heggaddevankote, Kunigal, Ramanagaram and Tumkur and from the taluks of Bhadravathi, Bangalore South, Challakere, Chamarajanagar, Dodballapur, Gundlupet, Heggaddevankote, Kadur, Kankanhalli, Koratagere, Krishnarajanagar, Mysore, Nelamangala, Pandavapura, Ramanagaram, Srirangapatna, T.-Narsipur and Tarikere.

The total mortality for Bangalore Corporation amounted to 216 (32 in hospitals) for 7 days representing a calculated death-rate of 14·4 (12·3 excluding hospital deaths) per mille of population (annual basis) as against 25·2 (19·7 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths numbered 2 under Cholera, 1 under Typhoid, 8 under Other Fevers, 25 under Dysentery and Diarrhœa and 180 under All Other Causes. The reported mortality was very low.

The total mortality for Mysore City was 76 (10 in hospitals) for 5 days representing a calculated death-rate of 22·7 (19·7 excluding hospital deaths) per mille of population (annual basis) as against 12·5 (10·3 excluding hospital deaths) per mile of population for the corresponding week of last year. Classified according to causes the deaths were: Cholera 2, Malaria 4, Other Fevers 8, Dysentery and Diarrhœa, 12 and All Other Causes 50. The reported mortality was low.

2998 T. CHANDRASEKHARAIYA, *Director.*

8. Market how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and state of food stock.

11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Well supplied.

9. Standing crops, *viz.*, (1) Paddy, (2) Ragi, (3) Sugarcane, (4) Groundnut and (5) Til are fairly in good condition.

10. Public health is good except for the outbreak of Cholera at Mailnayakanahalli, Channapatna Taluk, Thungani, Kankanhally Taluk, Rangegowdana Doddy Dakle of Bilkanganahally, Ramanagaram Taluk, Kamaghatta and Valegerehally, Ramasandra, Kotnur in Bangalore South Taluk, Guddadahally, Bangalore North Taluk. Action is taken to prevent the spread of disease. Cattle are reported to be generally healthy. Rains are needed badly.

11. Water and fodder are available.

Coolies find sufficient labour.

KOLAR.

8. Moderately supplied.

9. (1) *Seeds sown.*—Ragi, avare, thogari, horsegram, groundnut are reported to have been sown.

(2) *Standing crops.*—Ragi, avare, thogari, horsegram and groundnut are reported to be fair but they require rain.

(3) *Crops harvested.*—Nil.

10. There was no rainfall during the week in the taluks except Bangarpet.

Weather is cloudy. Rains are expected to come. Standing crops stand in need of rains.

Fodder and water are available for cattle.

11. People and cattle are reported to be generally healthy but for prevalence of Anthrax for cattle in some parts of Sidlaghatta Taluk. Preventive measures have been taken to check the spread of the epidemics by Animal Husbandry Department.

TUMKUR.

8. Fairly well supplied.

9. *Seeds sown.*—Ragi, paddy, avare, thogari and haraka in Tiptur, Tumkur and Gubbi Taluks. Sowing has been held up for want of rains in some parts of the District.

Standing crops.—Greengram, blackgram, jola, ragi, paddy and sugarcane, are reported to be in good condition.

Crops harvested.—Paddy in parts of Kunigal and Gubbi Taluks.

10. *Public Health.*—Public health is generally good except for the prevalence of Cholera in Thigalarahalli, Kodigenahalli and Hanumanthapura in Madhugiri Taluk, Amruthur, Nidasale and Huliyurduga and Gowdagere villages in Kunigal Taluk and Plague in Chicknaikanahalli Town, Settikere Majara Palya village in Chicknaikanahalli Taluk. Preventive measures have been taken to check the spread of the epidemics.

11. *Cattle.*—Cattle are reported to be generally healthy throughout the District. Water and fodder are available. Labour is available for cooly classes.

MYSORE.

8. It is reported that the markets are normally well supplied in all the Taluks of the District during the week.

Seeds sown.—It is reported that ragi was sown in the taluks of Mysore, T.-Narasipur, Chamarajanagar, Hunsur and Nanjangud Taluks; and paddy in Yelandur Taluk. Transplantation of paddy is in progress throughout the District except in Periyapatna Taluk.

9. *Standing crops.*—Such as pady, ragi, togari, castor, cotton, sugarcane and mulberry are reported to be fairly in good condition. But the standing jola crop in parts of Mysore, Nanjangud, Chamarajanagar and Yelandur Taluks, is affected by a kind of insects. Necessary preventive measures are being taken to check its spread in consultation with the Agricultural Department.

10. *Crops Harvested.*—It is reported that jola is being harvested in the taluks of Nanjangud, Yelandur, Chamarajanagar, Mysore and T.-Narasipur; and kar paddy in T.-Narsipur Taluk. The yield of jola is reported to be very poor in the Taluks of Mysore, Chamarajanagar, Nanjangud, T.-Narasipur and Yelandur due to inadequacy of rainfall and due to attack of pest. Hence ragi seeds are urgently required in the Taluks of Hunsur and Periyapatna for which a reference has been made to the Department of Agriculture.

(1) Prospects of the season are fair.

(2) There was scanty rainfall in the Taluks of Chamarajanagar, Heggaddevankote, Gundlupet, Nanjangud, T.-Narasipur and Periyapatna. The standing crops in the Taluks of Mysore, Hunsur, Krishnarajanagar and Chamarajanagar are in need of urgent rains.

(3) Both the cooly and agricultural classes are finding sufficient employment all over the District.

(4) Sufficient quantities of foodgrains are made available to people all over the District.

(5) Public health is reported to be generally good except for the prevalence of Plague in a few villages of Heggaddevankote and Gundlupet Taluks; and Cholera in a few villages of Mysore, Chamarajanagar, Krishnarajanagar, T.-Narasipur and Yelandur Taluks. Necessary preventive and remedial measures are being taken to check the spread of the epidemics.

11. Cattle are reported to be generally healthy. Sufficient quantities of water and fodder are available all over the District.

MANDYA.

8. Well supplied.

9. Transplantation of paddy under Nala and tank atchkats is in progress. The standing crop of sugarcane in Visvesvaraya Canal area is reported to be in good condition and jola in Nagamangala Taluk is reported to be under harvest.

10. Prospects of the season are reported to be satisfactory.

11. The public health is reported to be good throughout the District, except for the prevalence of Cholera in Malavalli Town and in some villages of Maddur, Srirangapatna and Krishnarajapet Taluks. Preventive measures are reported to have been taken to check the spread of the epidemic. Cattle are reported to be generally healthy.

Fodder and water are reported to be available in all the taluks of the District.

HASSAN.

8. Well supplied.

9. Agricultural operations are in progress. Transplantation of paddy and sowing of dodda ragi are in progress. Condition of sugarcane the only standing crop is reported to be good.

10. Prospects of the season are reported to be satisfactory. Rains are required at present throughout the District.

11. The cattle were healthy and fodder available.

SHIMGOA.

8. Well supplied.

9. Transplantation of paddy was going on in Sagar, Hosanagar and Thirthahalli Taluks. Sowing of paddy was completed in Shimoga and Shikaripur Taluks. Horsegram and jola sown in Chennagiri and Shikaripur Taluks; weeding operations were going on in Shikaripur Taluk. Land was prepared in Shikaripur Taluk for sowing of horsegram. The standing crop of paddy, sugarcane, ragi, jola and cotton were generally in good condition. The paddy crop in Shimoga Taluk and the standing crop in Bhadravati Taluk are in need of rainfall.

There was prevalence of paddy pest in Sorab Taluk, but it was too mild to warrent any immediate treatment.

10. Prospect of the season was generally good. Rainfall is reported to have been insufficient for the paddy

crop in Shimoga Taluk and for the standing crop in Bhadravathi Taluk.

11. Cattle were healthy. Water and fodder were available.

CHIKMAGALUR.

8. Markets were fairly well supplied. Prices are very high.

9. (1) *Standing crops.*—Sugarcane and paddy in Chikmagalur and Narasimharajpura Taluk; groundnut, coriander, til, jola, sugarcane, ragi and cotton in Tarikere and Kadur Taluks are the standing crops. Rains are required for the standing crops in Tarikere Taluk and Kadur Taluk.

(2) *Seeds sown and Transplantation made.*—Transplanting of paddy in Chikmagalur and Koppa Taluks is being done. Paddy and ragi are being sown in Tarikere Taluk. Transplantation of paddy in Mudigere Taluk is completed during the week.

(3) *Crops harvested.*—Nil.

10. Prospects of the season are reported to be generally good. Public Health is generally good.

11. Cattle are generally healthy, but for the prevalence of rinderpest in Bettadamallenahalli village, Chickmagalur Taluk.

Water and fodder are available.

CHITALDRUG.

8. Markets are well supplied except controlled commodities.

9. *Seeds sown.*—Transplantation of Dodda Ragi is going on in some parts of Chellakere Taluk. Sowing of jola, ragi, sajje, cotton, and oil seeds are reported to be in progress.

Standing crops.—The standing crops such as jola, ragi, save, navane, cotton, til, etc., recently sown are fairly in good condition. In Molakalmuru Taluk, it is reported that crops are withering for want of rains and groundnut crop is affected by worms on the surface of the soil. Rain is urgently required for all crops.

Harvesting.—Sugarcane in small scale is being harvested in Hiriyur Taluk.

10. Cooly classes are finding sufficient labour.

11. Cattle are reported to be generally healthy throughout the District.

Public health is generally good throughout the District except the prevalence of Cholera in Hampanur and Doddasiddavvanahalli villages of Chitaldrug Taluk, Bhoganahalli and Budihalli village hamlet of Mylanahalli in Challakere Taluk and Sondekere village in Hiriyur Taluk. The District Health Officer is reported to have been addressed to take preventive measures to check the spread of the disease.

Water and fodder are available.

MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE FOR THE WEEK ENDED THURSDAY, THE 26TH JULY 1951.

A total of 33 attacks with 9 deaths from Plague was returned from 8 villages in 4 taluks in 4 districts during the week against 31 attacks with 12 deaths in the previous week. The cities of Bangalore, Mysore and Kolar Gold Fields reported free from Plague. Comparative figures for the corresponding week period in 1950 and 1949 were 10 attacks with 1 death and 56 attacks with 31 deaths, respectively.

A total of 24 attacks with 8 deaths from Small-pox were reported from Bangalore Corporation, Mysore City and Kolar Gold Fields and from the towns of Chiknaikanahalli and Gundlupet and from the taluks of Chintamani, Mandya and Srirangapatna.

Two hundred and seven attacks with 96 deaths from Cholera were reported from Bangalore Corporation, Mysore City and from the towns of Bhadravati, Channapatna, Chikmagalur, Kunigal and Ramanagaram and from the Taluks of Bangalore North, Bangalore South, Challakere, Chikmagalur, Chamarajanagar, Kankanhalli, Kunigal, Koratagere, Magadi, Madhugiri, Molakalmuru, Malur, Ramanagaram, Srirangapatna, T.-Narsipur and Yelandur.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 210 (46 in hospitals) for 6 days representing a calculated death-rate of 16·2 (12·6 excluding hospital deaths) per mille of population (annual basis) as against 25·6 (19·4) for the corresponding week of last year. Classified according to causes, the deaths numbered 1 under Small-pox, 2 under Cholera, 1 under Typhoid, 4 under other Fevers, 43 under Dysentery and Diarrhœa and 159 under all other causes. The reported mortality was very low.

The total mortality for Mysore City was 56 (18 in hospitals) for 4 days representing a calculated death-rate of 20·8 (14·1 excluding hospital deaths) per mille of population (annual basis) as against 24·7 (12·2 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths were Cholera 5, Other Fevers 8, Dysentery and Diarrhœa 5 and all other causes 38. The reported mortality was very low.

There were 14 deaths (7 in hopitals) for 5 days from all causes in Kolar Gold Fields equivalent to a calculated death-rate of 6·4 (3·2 excluding hospital deaths) per mille of population (annual basis). Classified according to causes the deaths numbered 1 under Small-pox, 1 under Other Fevers and 12 under all other causes. The reported mortality was very very low.

8. Market how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and state of food stock.

11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Well supplied.

9. Ragi is still being sown in Dodballapur Taluk.

Standing crops such as paddy, groundnut, ragi, Sugarcane and avare are in good condition. More rains are required for standing crops.

10. Public health is generally good except for the outbreak of plague at Dobspet, Nelamangala Taluk and Cholera in a few villages of Kankanhalli Taluk.

11. Coolies find sufficient labour. Water and fodder are available. Cattle are healthy.

KOLAR.

8. Moderately supplied.

9. Ploughing and sowing operations are completed in all Taluks.

(1) *Seeds sown.*—Ragi, avare, thogari, horsegram, and groundnut are reported to have been sown.

(2) *Standing crops.*—Ragi, avare, thogari, horsegram and groundnut are reported to be fair but they require rains now.

(3) *Crops harvested.*—Nil.

10. There was rainfall during the week in some Taluks. Fodder and water are available for cattle. Standing crops are in urgent need of rains.

11. People and cattle are reported to be generally healthy but for prevalence of cholera in some parts of Kolar, Malur, Goribidnur Taluks and plague in some parts of Mulbagal Taluk. Preventive measures have been taken to check the spread of the epidemics by the Public Health Department.

TUMKUR.

8. Fairly well supplied.

9. *Seeds sown.*—Paddy, ragi, kulthi, groundnut in parts of Tumkur and Tiptur Taluks, costor and thogari in parts of Tiptur Taluk. Sowing has been held up for want of rains.

Standing crops.—Greengram, blackgram, jola, paddy and sugarcane and thogari are reported to be in good condition.

10. *Crops harvested.*—Groundnut in parts of Tumkur Taluk, paddy in parts of Kunigal and Gubbi Taluks.

11. *Public Health.*–Public health is generally good except for the prevalence of Cholera in Gowdagere village, Yediyur Hobli, Kunigal Taluk; small-pox in Belagumba Village, Tumkur Taluk; Plague in Chicknaikanahalli Town, Settikere majra palya in Chiknaikanahalli Taluk. Needful preventive measures are reported to have been taken to check the spread of epidemics.

(2) *Cattle.*—Cattle are reported to be generally healthy throughout the District except for the prevalence of blackquarter in Areyur village in Tumkur Taluk, Huligere hamlet of Madaloor Village, Sira Taluk, and some of the villages in Pavagada Taluk. Preventive measures are reported to have been taken to check the spread of the epidemic. Water and fodder are available. Labour is available for cooly classes.

MYSORE.

8 It is reported that the markets are normally well supplied in all the Taluks of the District during the week.

Seeds sown.—It is reported that ragi was sown in the taluks of Mysore, Nanjangud and Chamarajanagar Tauks; and groundnut in Gundlupet Taluk; and paddy in Yelandur, Krishnarajanagar and T.-Narasipur Taluks. the transplantation of paddy is in progress in all the Taluks of the District except in Periyapatna Taluk.

Standing crops.—The standing ragi crop is withering for want of rains. Standing crops such as paddy, ragi, avare, castor, cotton, groundnut and sugarcane are reported to be fair, but the standing ragi crop in parts of Periyapatna Taluk is reported to have been affected by a kind of disease known as "ಮುಚ್ಚಿರೋಗ". The Department of Agriculture has been requested to take necessary preventive and remedial measures to check its spread.

10. *Crops Harvested.*—It is reported that jola is being harvested in the taluks of Mysore, Nanjangud, T.-Narasipur, Gundlupet and Chamarajanagar. The yield is reported to be very poor due to inadequacy of rainfall and bug pest attack.

(1) Prospects of the season are fair.

(2) There was no rainfall in any part of the District during the week except in Heggaddevankote Taluk where too it was scanty and insufficient. The standing crops such as ragi, avare, castor, paddy and cotton in almost all the taluks of the District are withering for want of rains and are in need of urgent rains.

(3) Both the cooly and agricultural classes are finding sufficient employment all over the District.

(4) Sufficient quantities of foodgrains are made available all over the District.

(5) Public health is reported to be generally good except for the prevalence of Plague in a few villages of Heggaddevankote and Gundlupet Taluks; and Cholera in a few villages of Mysore, Chamarajanagar, Krishnarajanagar and T.-Narasipur Taluks. Necessary preventive and remedial measures are being taken to check the spread of the epidemics.

11. Cattle are reported to be generally healthy. Sufficient quantities of water and fodder are available all over the District for cattle.

MANDYA.

8. Well supplied.

9. Transplantation of paddy under Nala and tank atchkats is reported to be in progress. The standing crop of sugarcane in Visvesvaraya Canal area is reported to be in good condition and the sugarcane crop of the previous year is under harvest in Mandya, Maddur and Pandavapura Taluks. Jola in Nagamangala Taluk is reported to be under harvest.

10. Prospects of the season are reported to be satisfactory.

11. The public health is reported to be good throughout the District, except for the prevalence of Cholera in some villages of Mandya and Srirangapatna Taluks. Preventive measures are reported to have been taken to check the spread of the epidemic. Cattle are reported to be healthy. Fodder and water are reported to be available in all the taluks in the District.

HASSAN.

8. Well supplied.

9. Agricultural operations are still in progress in certain parts of the District. The condition of the standing crop is reported to be good.

10. Prospects of the season are reported to be fair in Malnad parts. Rains are needed in Arsikere and Channarayapatna Taluks as the crops such as cotton, jola, groundnut and ragi are reported to be withering.

11. The cattle were healthy and fodder available.

SHIMOGA.

8. Well supplied.

9. Sowing of paddy is completed in Shimoga, Shikaripur and Bhadravati Taluks. Sowing of ragi also is over in Shikaripur and Chennagiri Taluks. Horsegram was sown in Shikaripur Taluk, and Horsegram and navane were sown in Honnali Taluk during the week.

Weeding operation is in progress in Sorab Taluk and it is over in Shikaripur Taluk. Transplantation of paddy is going on in Sagar, Hosanagar, Tirthahalli and Bhadravati Taluks. The standing crop is reported to be generally in good condition.

10. Prospects of the season was generally in good condition. Rainfall is reported to be needed to the paddy crop in Shimoga Taluk and to the crops in rain-fed area in Bhadravati Taluk.

It is reported that the tanks of Bhadravati Taluk not received sufficent water.

There was prevalence of Cholera in Honnali and Bhadravati Taluks. Preventive measures are reported to have been taken.

11. Cattle are healthy in all taluks except in Channagiri Taluk where there was prevalence of black-quarter among the cattle of a village. Preventive measures are reported to have been taken. Fodder and water were available.

CHIKMAGALUR.

8. Markets were fairly well supplied. But the prices were very high.

9. (1) *Standing crops.*—Sugarcane and paddy in Chikmagalur and Narasimharajpura Taluks; coriander,groundnut, til, jola, sugarcane, ragi, cotton and paddy in Kadur Taluk; paddy, ragi, jola, groundnut, sugarcane, coriander, greengram, blackgram, til, avare, and wheat in some parts of Tarikere taluk were the standing crops. Spraying work was being done to the arecanut plantations in Sringeri Taluk.

(2) *Seeds sown and Transplantation made.*—Transplanting of paddy in Chikmagalur and Tarikere Taluks was being done.

(3) *Crops harvested.*—Nil.

10. Prospects of the season was reported to be good. Rainfall was generally sufficient in the District during the week except Kadur taluk. But the tanks in Tarikere taluk are yet to be filled up. Public Health was generally good.

11. Cattle were generally healthy, Water and fodder were available.

CHITALDRUG.

8. Markets are well supplied except controlled commodities.

9. *Seeds sown.*—Sowing of navane and cotton in Holalkere Taluk; ragi, jola, cotton, sajje, dhal and groundnut in Davangere Taluk, paddy in Molakalmuru Taluk; ragi, save, sajje and navane in Hosdurga Taluk are reported to be in progress.

Standing crops.—The standing crops such as jola, ragi, save, and navane sajje, oil seeds and cotton, etc., recently sown are fairly in good condition. All these crops required urgent rains.

Harvesting.—Sugarcane in small scale is being harvested in Hiriyur Taluk.

10. Cooly classes are finding sufficient labour.

11. Cattle are reported to be generally healthy throughout the District.

Public health is generally good throughout the District except the prevalence of Cholera in Guttur village in Hiriyur Taluk, Kunabevu and Doddasiddavvanahalli in Chitaldrug Taluk. The District Health Officer is reported to have taken preventive measures to check the spread of the disease.

Water and fodder are available.
